

Dear FCC,I recently purchased an XM Radio. I hope you reject petition 04-160. I have found the instant Traffic and Weather channels helpful. I am going on a trip to Los Angeles this summer and I have found by listening to the weather and traffic in LA it has helped me plan better for my trip. I hope you ignore the NAB and spend time worrying about real issues, such as, allowing four groups, Chancellor, Clear Channel, Infinity, and Capstar control 63% of Top 40's 61 million listeners nationwide and 56% of Country's 28 million listeners nationwide.

Regards,

D. Benjamin Varnau
